Re: Artistic Surfaces
1591 Powerline Rd
Pompano Beach, FL 33069

To Whom It May Concern:

This letter is intended to certify the position that Artistic Surfaces of Pompano Beach, FL is a BASF Performance Flooring approved applicator for our Degadur SRS product line.

First, it should be emphasized that BASF Performance Flooring, the polymer flooring division of BASF Construction Chemicals, the world's largest construction products company, sells only to trained and approved applicators. We only do business with the best contractors, who are trained by BASF on the installation of our products. In addition to the requirement of having a successful, established contracting business, our contractors must maintain a high level of customer satisfaction to maintain their approved contractor status.

In light of their qualifications, Artistic Surfaces is considered a superior contracting firm which our company BASF will authorize for the installation of our products for the foreseeable future. Artistic Surfaces is a company that possesses the desire to market and install our complete product line professionally and with the required quality. They are committed to customer satisfaction and thus maintain the reputation of their company and that of BASF Performance Flooring. I can attest that Artistic Surfaces is one of the finest flooring contractors in the United States.

Thank you for your interest in BASF Performance Flooring Products. Please call me if I can be of any assistance.

Respectfully,

A handwritten signature in black ink, appearing to read "Dwayne Thomas", with a long horizontal stroke extending to the right.

Dwayne Thomas
