

Testimonials

Haughn and Associates - *"We have been using ONcomm Communications for the last five years and didn't really understand how valuable of an asset they are to our firm until we decided to upgrade our phone system. We went through the process of pricing out multiple vendors and found that Tom offered the best pricing as well as the features that we needed. After we made the decision to purchase our system is when ONcomm's value was brought to my attention. The install of the phone systems was seamless and the support we have been given since the installation is truly impressive. Every issue and question has been resolved in a extremely quick and professional. I would recommend ONcomm to any business looking to improve their communication efficiencies."*

-Brian F. Haughn

Audio Innovations - *"ONcomm Communications recently installed an IP based phone system in our office giving us remote telephone capability. They were very knowledgeable in customizing the phone system to work with our needs. I would highly recommend them based upon the level of service they provide, the ease of contacting them, and keeping costs within reason."*

-Matt Stannard

Capital Area Humane Society - *"ONcomm has really been responsive to our needs. They really stepped up to the plate during an issue we had with the carrier and our phone system."*
