

**Associated Builders and Contractors
2013
Accredited Quality Contractor
Core Requirements**

Member Name: Thermal Concepts, Inc.

Congratulations on your 2013 AQC Recertification! ABC has instituted core requirements for participation in its AQC program. The table below shows the results of your 2013 recertification. We encourage you to continue to meet the criteria you met this year. By 2015, all AQC members must meet all requirements in order to be recertified. If applicable, information is provided for criteria not yet met.

2013	Criteria	2013	Criteria
Y	Received a minimum of 2 quality based awards (project specific) within the past 7 years. (Note: These are awards won for quality work on specific projects.)	Y	Conducts Job Site Hazard Analyses before work commences
Y	Financially stable (per financial institution)	Y	Conducts a new employee safety orientation
Y	Bonded adequately (or provided ratios)	Y	Has a written substance abuse program that includes a drug/alcohol screening process
Y	Has a Quality Control Program	Y	Has a formalized Craft Training structure (for companies that self-perform)
Y	Safety – Incident Rate at or below the industry standard (STEP Gold or above)	Y	Regularly participates and/or encourages employees to participate in civic-oriented AND community activities
