Re: Letter of Recommendation

To Whom It May Concern:

It is with great confidence that I put forward this letter of recommendation for Thermal Concepts, Inc.

The School Board of Broward County hired Thermal for Sandpiper Elementary School. The scope of the project consisted of a complete replacement of all HVAC equipment and miscellaneous construction including a complete lighting upgrade in each classroom.

On this project I was the Project Manager and had the pleasure to work directly with the Thermal staff. Their professionalism, commitment to quality, and understanding the importance of adhering to a strict budget made them a great partner in maintaining the goals of the project. The quality of the workmanship was apparent and Thermal Concepts should be proud of the dedication and hard work put forward to make this project in time and a success. Trades coordination and adherence to a very tight construction schedule were exemplary.

I would like to say that Thermal Concepts not only met my expectations, but exceeded them on all levels.

Please feel free to contact me directly if you have further questions.

Sincerely,

A handwritten signature in blue ink that reads "Harold Edelson".
