

CUSTOMER SATISFACTION

ANOTHER SATISFIED CUSTOMER

634,818SF Office at 9250 West Flagler, Miami

Dave (Glickman) –

Wanted to drop this line to thank the Service Team that was on site here at 9250 West Flagler today. They were extremely professional and efficient with the crane operation and motor replacement. Having Cornell Balancing onsite exceeded my expectations and really went over the top. I don't think the motor and gearbox-driven fan has ever run so smoothly, at least since I have been here. Chris (Bavaro) is also doing a top rated job on our chiller leak repair. His attention to detail is so refreshing, because I thought this concept had been lost over the years. Again, I want to thank you and your Team for delivering a level of service that is a cut above.

Sincerely,

Cory-Paul L. Romaniuk, CPMM
