To whom it may concern,
I am a superintendent for ASR Constructors. I worked with Seawright Custom Precast on the Rubidoux Community Library project. There was about 3000 lineal feet of precast coping and some precast window sills. All the people I dealt with were very professional and any issues we had were handled quickly and efficiently. The submittals and samples were turned in on time and were approved right away. The precast was delivered early and when I needed some extra pieces they were done as quickly as possible. I was glad to have a subcontractor I could count on to do there job without any troubles.

Sincerely, Tony Puppig ASR 951-538-8569
