Subject Landscape project

Good Morning.

The Lake Worth Toll Plaza is presently getting new landscape. I wanted to express my gratitude and praise regarding the work that has just begun by Landscape Service Professionals.

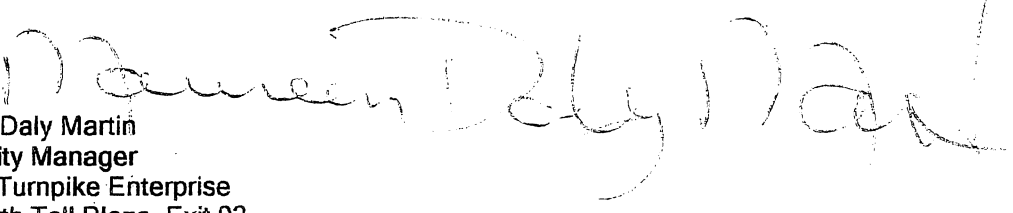

In a word: WOW!!!!!!!!!!!!!!!!!!!!!!!!!!!!

What a pleasure it is to work with a company that is organized and really knows what it is doing. Landscape Service Professional is exactly what their name states...professional.

They are hardworking. They do not waste time. They are following all safety procedures. They are polite. And boy do they know what they are doing. In fact, yesterday, I told all employees when we were watching them dig and place all the palm trees that it was like watching a beautiful ballet. Everyone knew what they were doing. And the individual I have been talking to a lot, Guy, is great!

Thank yo so much for hiring a great contractor. They are not even done and we all are so impressed with their work. What ever they are getting paid, we are getting our moneys worth and then some. They do a lot of little things that make a difference too. Thank you.

Maureen
