

ATLANTIC COAST PRECAST

Manufacturers of Quality Precast Concrete Products Since 1965

ABOUT ATLANTIC COAST PRECAST

Since 1965 Atlantic Coast Precast (ACP) has been providing South Florida architects, contractors and other industry professionals with distinctive concrete design elements that set your buildings apart. We specialize in renovation and restoration options including concrete panels, posts, balusters as well as an extensive range of custom products.

Our highly trained and skilled professional team provides a level of expertise and attention to detail second to none. Each product is refined with exact scientific precision to meet your needs with strength, beauty and lasting performance.

Bring us your challenges. We'll help you find the right product for your applications and take pride in our customization capabilities to get the job done right. No project is too small – or complex.

Our track record of success speaks for itself ...

More than 90% of our business comes from repeat customers and referrals from satisfied clients!

For exceptional customer service backed by a commitment to excellence every step of the way, depend on ACP.

PRODUCT SPOTLIGHT

Manufacturers of Quality Precast Concrete Products Since 1965

ATLANTIC COAST PRECAST

Rail Panels:

We provide reliable and durable precast rail panels for use in all types of commercial and institutional construction applications. We have many mold designs and can also produce to your custom specifications. We create our precast panels in our factory, saving you time and reducing your construction costs. We produce a number of sizes and designs - if you need a custom design, we will work with you to set up the required molds and produce the finished product. **A few of our panels are featured in this communication.**

Balusters and Balustrades:

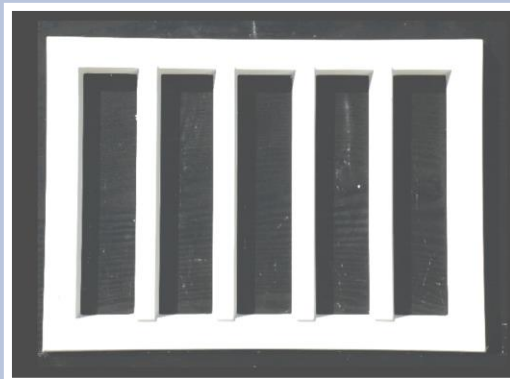

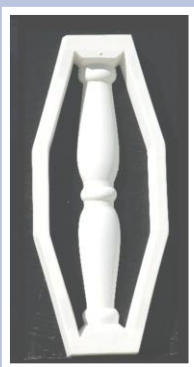

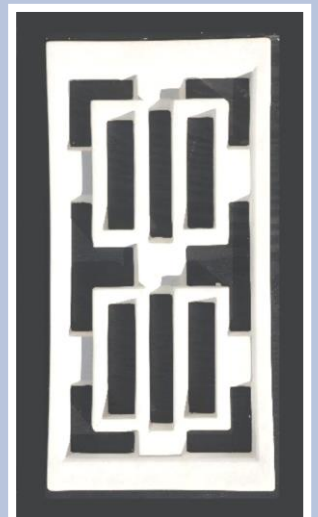

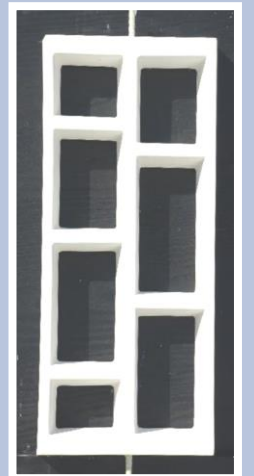

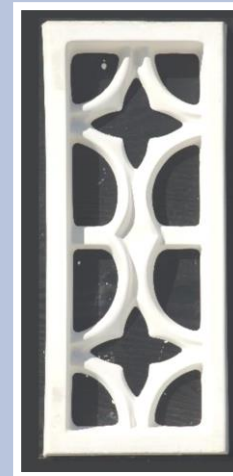

Precast concrete balustrades have maturing characteristics similar to natural stone. This aging process makes precast concrete an ideal material for use in your restoration & renovation projects. We have a broad range of designs and sizes to suit your needs and will be happy to work with you to produce any custom designs.

Caps:

We produce the finest quality precast caps. Precast concrete wall caps can be placed on any wall to add protection and beauty. We manufacture various types of caps e.g. flat, bull-nose, tiered and OG. When deciding what size of wall cap to use, calculate the width measurement by measuring the width of the wall and adding at least $\frac{3}{4}$ " on each side for overhang. An overhang allows the water to drip off the edge and protect the wall beneath.

**CONTACT US FOR YOUR PRECAST CONCRETE NEEDS
AND ANY UNIQUE PRODUCTS THAT MAY REQUIRE
CUSTOMIZATION!**
