

HALL BARNUM LUCCHESI ARCHITECTS

May 22, 2002

Frost Constructors, Inc.
8810 Will Clayton Parkway, #C
Humble, Texas 77338
Attn: Mr. Dale Frost

To Whom It May Concern:

The principals of Hall Barnum Lucchesi Architects are happy to recommend Frost Constructors for any proposed construction work. We have been pleased to associate with Frost Constructors on several building projects since 1994. Project types which we have successfully completed together include competitively bid public buildings, both new construction and additions and renovations to existing facilities, for municipal government clients, design/build projects for private and church clients, and projects requiring negotiated or Guaranteed Maximum Price contracts for construction. Frost Constructors has also provided preliminary cost estimate services for our clients when requested.

Adherence to cost controls, unique project management skills and attention to client satisfaction are the primary factors in our continuing enthusiastic recommendation of Frost Constructors.

Sincerely,

HALL BARNUM LUCCHESI ARCHITECTS

Stephen A. Lucchesi, AIA
Vice President
