

Re: Letter of reference.

To whom it may concern:

Please except this letter of recommendation for Ransom Construction, Inc. Our firm has worked with Ransom Construction Inc. for over 12 years. They began at our Ft. Carson, CO housing properties and we have used them on many projects since that time. We have used Ransom Construction Inc. on multiple housing projects such as Altus Air Force Base and Sheppard Air Force Base. Currently they are performing work for us at Tinker Air Force Base and FE Warren Air Force Base.

What you can expect from Ransom Construction Inc., is a streamlined, honest process built upon open communication and market/industry knowledge. They have come in learned the different challenges of each project and simplified the process. This has been the key for them as far as meeting all their daily, monthly and turnover schedules. They have proven themselves to be a reliable company from the start of a project through the end of the project.

Ransom Construction has worked on very large projects and small projects. In my experience this company has proven themselves financially, we have had minimal issues in this area, what little issues we have had have been taken care of immediately and successfully.

I welcome any specific inquiries to support my recommendation of Ransom Construction, Inc.

Respectfully,

Sunday Ballas
Business Manager – Air Force Projects
