DR MARTINEAU did my roof back in 2018 after hurricane Irma damaged my roof. I called many roofing companies requesting an estimate, some of them took my information I never got a call back from them, some others did not even answered the phone. DR Martineau not only answered my call but send an estimator few days later. The employees are very professional and caring. My Roof was done as estimated on time in a very clean an professional way. I definitely recommend this company to anyone who is looking for a trusted and professional Roofing Company.
