Subject: FCCS Remodel Finish Material

Gary,

I wanted to thank you for the extra effort on getting the wood finish colors correct on the Andy's Church project. They all look great. I especially like the finish on the wide poplar trim, it is quite handsome.

It is real easy to rush or settle on stains that need to match other materials like the laminate panels and in this case I am pleased that this didn't happen. You can pass this on to your stain supplier as well.

I would like to get a copy of each stain formulation for our records on this project and for reference on others.

Good job! I hope to work with you again in the future.

Scott Beck
