To Whom It May Concern,

Our dream addition to our home was just completed and we are so thrilled with the outcome! We are proud to recommend Hoskins Construction to potential new clients.

Our project was quite extensive, including over 900 square feet of new heated space, two screened patios, new roof, carport, and driveway. We are extremely pleased with the high quality of workmanship from Hoskins. The results have met our expectations and in many cases exceeded them.

We are also particularly pleased with how easy it was to work with Hoskins and the courteous treatment we received from both the Hoskins workers and the subcontractors that worked on our project. This was important to us with a small infant in the house.

Special thanks to Anthony, our project manager, for a super job! He is always easy to reach, keeps the customer involved, and is a general whiz at keeping the whole project on track and running smoothly.

Again, we are pleased to recommend Hoskins Construction to anyone looking for high standards in workmanship and professionalism at a fair, competitive price.

Sincerely,

Bob and Wendy Pascucci
