Rarely have I encountered the expertise that JRD Grading and Paving, Inc. brings to the site and asphalt paving aspect of a project. Not only does the firm perform well in Site Prep and Asphalt Paving, but they also bring a lot of other great aspects.

1. Great skills in communication with both the G.C. and Subs.
2. Team player in all aspects
3. Timely submittals
4. Good problem solver at the site

JRD has completed a number of projects for us ranging from \$166,000.00 at St. Henry to \$880.00 at Platronics. Great diversity for size of projects.

I would not hesitate to recommend JRD Grading and Paving for Site and Asphalt work. I have been pleased to have the opportunity to work with JRD and look forward to working with them in the future.

Sincerely,
