To Whom It May Concern:

I have known David Strong, both professionally and personally, for 4 years. While employed with Andrews General Contractor, David Strong was the primary point person in overseeing and supervising the construction of Kids R Kids, Clermont FL. The 14,000 square foot facility was completed on time and under budget. David was instrumental in ensuring the successful completion of the facility by identifying many issues/discrepancies during the review of architectural plans. We had expected the construction to be a very stressful experience however David's knowledge, skill and demeanor resulted in a very positive and comfortable experience for us.

Due to the outstanding support and direction that we received during the construction of our primary facility, we contracted with Strong General Contractors to complete the 5,000 square foot after school facility at Kids R Kids. This facility was also completed on time and under budget. David was very effective in planning and implementing the construction so that the "rainy season" had no impact on his ability to complete the project by our deadline. In addition to the construction aspect, David also gave us very valuable input on color, design and functionality aspects of the after school facility.

In addition to completing the above commercial projects for us, David has also done a renovation to our home. David was so committed to the project that he personally boarded up the area of renovation during the pending hurricane.

It is our plan to build a 2nd Kids R Kids next year. We have already contracted with David to complete this project as well. He was the clear choice based on the outstanding work he has done for us in the past.

David's personal and professional integrity are without reproach. We've thoroughly enjoyed working with David on a professional level so much so that we've developed a personal friendship with him and his wife, Ronda.

I would strongly recommend David to any individual wishing to take on a construction project. David's knowledge and skill in construction offer a full level of comfort to his clients. If you have any questions or require additional information, please feel free to call me at (352) 636-4584.

Sincerely,

Bart Sutherin, Owner
