"Serving Central Florida Since 1988"

August 31, 2004

To Whom It May Concern:

I have had the pleasure of knowing David Strong for over seven years.

Additionally, I have worked with Dave on two projects. Our first project was the construction of a new facility for our Tampa location. The second was a small remodel of our Orlando facility.

In both large and small projects, Dave has demonstrated the utmost professionalism in seeing the projects through to a satisfactory conclusion. Dave did what he said he was going to do, and kept us informed throughout the process.

I have come to know Dave personally. I can attest to his knowledge, caring, integrity, and community standing.

I rely heavily on Dave's knowledge and advise in analyzing any facility project we entertain. And Dave is our choice for Bobcat of Central Florida's fourth coming facility project.

It is without reservation, that I can recommend Dave for a project of any size.

Sincerely,

A handwritten signature in blue ink that reads "Rick Kingsland".
