To Whom It May Concern:

Although our first project with Regency Construction is just in the final stages, it is our pleasure to recommend their services as a General Contractor.

During the past several months, we have worked directly with Mr. Robert Boe, SVP and Mr. Blake Pressley, Project Superintendent on our new branch in Keller, Texas. To date, Robert and his team have met all of our expectations.

All of the Regency staff from the office personnel to the staff on site has demonstrated an attention to detail and a concern for quality. Construction timelines and budget amounts have been met. Their progress reports and interim communications have been timely and have kept us fully informed along the way. There have been no surprises. Any issues that have arisen were openly discussed and immediately resolved.

We would welcome the opportunity to work with Regency again.

Sincerely,

A handwritten signature in blue ink, appearing to read "Les Mariotti".
