

# JOB REFERRAL FOR REGENCY DEVELOPMENT AND CONSTRUCTION SERVICES

When the Hickory Plaza Lot 6 project in Frisco was initiated, I felt we had to fit the scale and speed at which we wanted to move with the right kind of contractor. One that could bring value and execute the project in a timely manner at a competitive and fair price. We determined there was only one choice, and it was Regency Construction.

Not only are they good top notch professionals, they are a joy to work with. Not once throughout the process did cost undermine quality. There is never a question of who I am dealing with the on the jobsite when Regency is involved.

There is a high degree of care, commitment and high work ethic from everyone on the Regency team. I plan on using them again and offer my highest recommendation for Regency.
