## HOMELAND SECURITY CONSTRUCTION CORP.

September 15, 2011

To Whom It May Concern,

This is a letter of recommendation for Danielle Gittens to be your next Senior Project Manager/Consultant. We contracted Danielle to provide Construction Management services for a couple of our more "difficult" projects. From Day One, Danielle showed her skills as a valuable team leader. Her understanding of Construction, from Estimating to project close out was incredible.

Danielle is a very dedicated and responsible individual with excellent project and contract management skills. Moreover, she is not afraid to make recommendations and changes that she feels will improve the project. She has worked on numerous projects for our firm and in each instance, the feedback from workers and project owners has been nothing but positive. She finds ways to ensure that the quality work on the Project exceeds the requirements while she is efficiently managing the costs and schedule.

As a consultant with our organization, Danielle also provided training to our staff on project management administration and scheduling. She also helped us to improve our network of professional contacts which made it easier for us to find quality subcontractors. Her strong business sense only enhances her value as a thorough Senior Construction Manager. She is a great asset to any community.

If you have questions, please call me at 240-508-3026 or email me at [brezac@hsc-no1.com](mailto:brezac@hsc-no1.com).

Sincerely,

Homeland Security Construction Corp.

Brian A. Rezac  
V.P. of Operations
