June 20, 2013

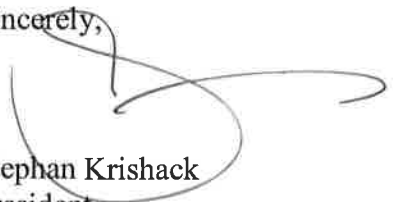

I am writing this letter of recommendation for Danielle Gittens/Brewington Management Company to be your next Construction Management Consultant. For many years, Danielle worked with our firm as one of our consultants. Danielle was added to SEKTECH's project management team on our multiple construction projects at the Veteran Affairs Hospitals in West Haven, Connecticut and Newington, Connecticut. Danielle excelled and her role was expanded to overall project executive thru the final completion of our projects there.

Danielle's strong management helped ensured that our Company completed construction projects on time and increased our initial profit margin. She works very diligently and always had an eye for detail. She helped us implement changes to our policies and procedures that helped made our organization more efficient and profitable.

Danielle is dedicated to her clients and has spent many long hours in our office helping us to work out the details of complex construction issues. Without her help, our organization would not have been able to manage the projects as efficiently.

I would recommend Mrs. Gittens for most any construction CM role or assignment.

Sincerely,

Stephan Krishack
President
