Dear Kevin:

I felt it very necessary to notify you of the professional attitude and craftsmanship with which your crews handled our painting project. Being a large hotel at a busy location it is not easy to accommodate everyone's needs.

Your crew was patient and respectful of our needs and did a first rate job handling each room and situation as an individual job. They completed each to our 100% satisfaction.

I would not hesitate to recommend A.C.S. to any and all who would ask.

Thank You.

Sincerely,

Robb Blakely
Chief Building Engineer
