Kevin Dunning
Advanced Coating Systems
acs@acstatic.com

Dear Kevin,

We are very pleased with the tables and chairs you refinished for our staff courtyard. Everything looks like new! The chairs are rust-free and evenly finished. I'm impressed with the smooth surface you achieved on the fiberglass tabletops. All the cracks and chips are filled in so seamlessly; I can't even tell they were there. Several of our employees have mentioned how nice it looks now.

Also, thank you for your attention to the bumpers on the stacking chairs. Several of them were missing, and there weren't enough in the right places in the original manufacture. It was very handy that you were able to get replacements, and install the additional ones where needed.

Your timely work and excellent service is commendable. Four-dozen chairs and thirteen HEAVY tables (they anchor umbrellas) is a lot to handle, even in two batches. You completed all of them within the month during the busy outdoor season, and you even set them in place around the courtyard at delivery.

We especially appreciate how cost-effective your rates are. Replacing the tables alone would have cost twice as much, for items that would have been much less durable & more lightweight than what we had. We're very happy you gave a whole new life cycle to the equipment we already owned.

Best regards,

Juliann Kinkel
