RE: Amaxx, Inc.

To whom it may concern;

Brenner Builders has worked with Amaxx for approximately 13 years. For about the same length time, I have also had Amaxx work on some of my personally owned properties.

It is my pleasure to recommend Amaxx, unconditionally, for all site work, drainage, septic and road work. In this industry, it is always great to work with a subcontractor that, simply, just gets the job done. After the scope of work is laid out, Adrian, Pat and their team work in a clean, systematic, professional manner in executing that project. In addition, their field staff and operators treat the worksite and other subcontractors with respect.

Over the years, Amaxx has been our "go to guy" for anything related to site work.

Feel free to email me with any questions or comments.

Very truly yours,

A handwritten signature in black ink, appearing to read 'KB', with a long, sweeping horizontal line extending to the right.
