To whom it may concern,

This letter is in reference to Ames Excavation. Ames excavation is the "only" company we will use for excavation. I've known Bob & Chris for about 10 years & they've never let me down. They are true professionals & have always given us the highest quality of work completed on time. The various projects they've done for us encompass trenching, backfill & grading of utilities, private & public. Setting & leveling transformer vaults. Providing complete road crossing service for our utility lines including saw cuts, trenching, backfill, tamping, compaction test & reinstallation of asphalt or concrete.

*Please feel free to call me with any additional questions or needed information.*

Electrically Yours,

Steve Stegman
