To whom it may Concern

My name is Brian Rahl and I am a field Superintendent for IES Commercial. I have had the privilege to use Bob Ames Excavating on several of my projects.

Bob Ames Excavating above all makes safety a number one priority not only to their employee's but to the IES personnel that need to work close with them as well as any other contractor that may or may not be close to their excavations.

Bob Ames Excavating has done interior building excavation and backfill, exterior utility excavation and backfill as well as site lighting trenching and backfill. All of the above work has need to be graded back to original condition by use of the grade stakes provided as well as laser levels.

Bob Ames Excavating's workman ship is above and beyond the industry standard "Ames " not only works proficiently but they save me time as well.

I would be proud to recommend Bob Ames Excavating to any contractor that has need of an excavating contractor.

If you have any further questions please do not hesitate to contact me.
