

## Client Testimonials

I have worked with a lot of contractors over the years and you are one of the most efficient and service oriented I have ever met. You can count on me to let anyone I know that needs work to give you a call. I will call to the next time we need to swing the hammer.

They have completed work from small ADA restroom renovations to 15,000 sf. new interior build outs for me and I will continue my relationship with them. They have always been quick to respond, professional, and have a great group not only in the field but in the back office as well. In this line of work there are always issues during construction that may come up from time to time. Prodigy has always been right there to help with solutions and resolve issues and stay on schedule to the best of their ability. If you are not aware, they are also a Diversified Company.

I would like to thank you for the level of professionalism and discreteness you and your contractors had while performing renovations on the inside and outside of our building. I appreciate all of the follow-up that you had given me during the project. Although the scheduled work needed to be completed during business hours, my customer service was not affected. For that I greatly appreciate it. Please say thank you for me to all of your contractors. I will gladly have your company back for any additional repairs needed. EVERYTHING looks great! Thank you again! It was a pleasure working with you.

Many thanks for all of your hard work and dedication these past few short weeks in preparation for the executive visits. Reviews have been over the top from all lines of business at these sites. Considering the short time frame we had, I would consider this nothing short of miraculous. I would also like to thank you for all the late nights, long weekends, last minute changes, and for indulging my constant paranoia! There are a million corny analogies about the power of a team. I'll spare you - but the successes we enjoyed today could never have happened without the collective talent, dedication and cooperation of you all. Thanks again and congratulations - I am privileged to work with you all.
