November 10, 2020

Whenever steel stud framing or drywall is involved, GTX is always the first company we call. They do fantastic work at a fair price and always put in the extra effort to bring projects in on time. Their great communication, attention to detail, and follow through make them our first choice for every project. They are true team players, that are willing to do whatever it takes for a project to be successful for everyone involved. With his extensive experience and knowledge, Maurice has always been an incredibly valuable partner on all of our projects. We have worked with GTX for many years, and will continue to do so for many years to come.

Respectfully,

Colin Christensen  
Vice President
