

## Testimonials

"I'm a General Contractor and I used Chris Landry and Landry's Painting for several houses I built, for both exterior and interior painting. The work was above expectations. The crew was clean, orderly, dressed well, and picked up after themselves. They used high quality paint. I got no call backs from customers. Landry's were timely – started and finished on time."

***Bean Construction, Hesperia, CA***

"The San Bernardino County Museum has worked with Landry's Painting twice. Mr. Landry's firm painted the exterior trim & accent colors on the San Bernardino County Museum's branch, Victor Valley Museum to our exact specifications. Recently, they painted the interior of the Bird Halls inside the main Museum in Redlands. The multiple color schemes included changes in intense color and high vaulted ceilings. In each case, Landry's Painting was professional, exact, on-time and with a level of commitment to satisfy the customer."

***Accounting and Budgets San Bernardino County Museum***

"Chris did work exterior painting projects for our organization. My outgoing boss told me "don't lose this number. This guy's a great resource. He's the cheapest and he'll take care of you. You won't need anyone else" So I am obviously hanging onto Chris' information and will definitely call him when we need any painting projects."

***Trinity Services Director, High Desert (Hesperia and Apple Valley)***

"Landry's Painting was a good experience for us. They priced out the job for us. My onsite supervisor was very pleased with them. They did a great job."
