RE: U-Gro Learning Centers

Dear Mr. Roberts,

I am pleased to provide this letter of recommendation to Paramount Contracting in support of the ABC Keystone Chapter Excellence in Construction competition. Benchmark Construction selected Paramount Contracting to serve as the Metal Stud Framing, Drywall and Ceiling Finish contractor to furnish and install for the U-Gro Learning Center. The construction contract was approximately \$228,000.00.

Paramount Contracting did an outstanding job managing the many elements of their contract of the project, including metal stud trusses, framing, insulation, drywall, and ceilings, maintaining the project schedule, and ensuring quality of workmanship. There was a unique aspect to the facility with the light gauge trusses creating an exposed focal point as well as a structural element of the building. Paramount Contracting demonstrated a keen sensitivity to the building and our overall project schedule while exceeding our expectations in all respects.

We have found Paramount to have the expertise and the ability to handle surprises with professionalism and integrity. Thank you for this opportunity to support this submission to the ABC Keystone Chapter Excellence in Construction awards competition.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Brandt III", with a long horizontal stroke extending to the right.

Robert A. Brandt III
