Re: Centre Care – New Skilled Nursing Facility

Dear Mr. Philpot

I would like to express Warfel Construction's sincere appreciation of Paramount Contracting's work on the recently completed Centre Care Skilled Nursing Facility. I wholeheartedly commend Paramount's execution of work on this project and the significant contribution that your team made to the project's success.

Paramount Contracting performed the CFM and light gauge framing, gypsum assemblies, ACT systems, and miscellaneous carpentry and specialty work. Paramount worked as a partner with Warfel to establish a level of quality and a pace that allowed us to meet an aggressive schedule even through a year of uncertainty and dealing with unprecedented unknowns.

As the Senior Project Manager for Warfel Construction, I count myself lucky to work with a great team. Your project manager, Derek Heidbreder provided great support to his field team and I especially want to give a big shout out to Lee Hall who led the execution of the work in the field, guiding as many as 35 or more people daily. Lee's knowledge of the systems and the AHJ was truly invaluable to the success of the project.

The entire Warfel team thanks Paramount for providing an organized and professional supervision team with the experience to execute the framing, gypsum, and ceiling systems with excellence. Paramount was a key team member on the Centre Care project and Warfel sincerely looks forward to the next opportunity to work with your company.

It was a pleasure having Paramount Contracting on the Centre Care team.

Sincerely,

A handwritten signature in black ink, appearing to read "Sheila L. Snyder".
