

Testimonials:

"Dan Bingham runs a pretty tight shop. He and his associate engineers have always provided me with excellent service. I am a Realtor with Century 21 and always go to Dan when I need an inspection on a property a client of mine wants to sell or buy. One of his engineers is always available to do the inspection in a timely manner and have a report ready in a day or two. I have never had a problem with them, and would recommend them to anyone needing a structural inspection."
