Dear Bill,

We have finally completed the outside repair work of the stucco here at our St. James Pioneer Bank branch. With the wonderful help from your staff member, Todd Tetzloff, we were able to get the stucco repaired in a timely manner and have the building repainted before winter.

It is truly evident that you instill the values of customer service and technical knowledge in your staff. The planning and the attention to our needs made this project a stress free one for us.

I proudly endorse Wilcon Construction, Inc as a firm and wish you and your company the best as you continue to help our area benefit from renewed economic growth.

Sincerely,

Dean Olsen
President
