

To Whom It May Concern,

It is my pleasure to convey my utmost delight and honor to recommend Leisure Construction.

About four years ago our Resort had the opportunity to work with Sean Edwards and his team on a complete remodel of our Tiki-Bar. After several decades of a standard Florida style Tiki-Bar look, Sean and his amazing crew transformed this popular bar into one of the best looking coastal bars in the state.

This is primarily due to the professional and awesome communication skills that Sean possesses. Right off the bat, our staff was extremely excited to work with Sean, because of his easy going and confident demeanor. We found him to be very resourceful, bright, energetic, honest, and very well respected within the community.

Then it came time to gut out/remodel our 10,000 square foot restaurant in early 2014, Leisure Construction was our primary choice to take on this epic remodel. From day one Sean and his team worked under very tight conditions and kept the rest of the facility up and running throughout the construction. This was monumental because of the high traffic of people coming to the resort.

Sean kept his subcontractors under control with their performance, timing, and quality and most importantly the communication was superb! Without these outstanding skills, I truly believe another company would have been overwhelmed with this project. The final result is a fantastic new restaurant Ocean Flame. All of us here at Shephard's and our customers are in awe of this magnificent state of the art restaurant thanks to Leisure Construction.

Regards,

Paul Andrews
