Re: *Letter of Recommendation - Spartan Construction, Inc.*

To Whom It May Concern:

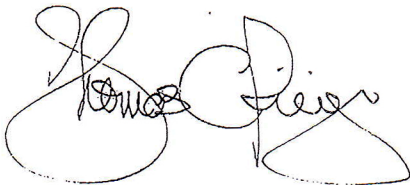

Since 2002 Spartan Construction, Inc. has been the successful bidder and awarded numerous school contracts to perform "Masonry Restoration and Related Work" for the Bernards Twp. BOE, Linden Public Schools and Edison Twp. BOE.

Timmy Koukoumis was on-site each and every day supervising the crew and to insure all details and specification requirements were addressed and professionally completed. In addition, every project was sufficiently staffed, always completed on or before the dates specified and from what I've seen over the past 30-years as an Architect involved in masonry restoration, their workmanship is unmatched.

In most cases, the end result of the attention Timmy provides is a perfect, no defect Final Punch List Inspection.

In closing, I highly recommend Spartan Construction, Inc. for all your masonry needs. If necessary, contact my office for additional information.

Very truly yours,

Thomas C. Rienzi, RA
