

# YCASA field and facility gets some improvements before opening day

By ADAM RAMIREZ  
YCASA President

Over the last couple of months the home of Yucaipa Calimesa Amateur Softball Association has benefited from some major improvements to its main softball field and premises at the I Street Park.

The first major project was to its main soft ball field where all the infield clay/dirt was laser graded and leveled and all

the overgrown turf was evenly cut back to give a uniform look to the playing field.

Batter boxes and pitching lanes were treated with extra hard clay to reduce wear and sliding lanes were added to second and third bases.

None of this would have been possible without the help of JCG Equipment Rentals and owner Jack Gassaway. Jack provided the laser leveling and tractor to grade the field.

The next project was the repaving and striping of the parking lot adject to the Main "I" field. KAD Paving of Yucaipa provided the materials and service at no cost and brought life back to the parking structure.

KAD owner Donnie Wheeler and Patrick Palafox oversaw the project and did so as a donation to YCASA.

"The YCASA Board of Directors and its players would like to thank the volunteers who worked countless hours on these projects with a special thank you to KAD Paving, JCG Equipment Rentals, Matt Esber and Jeff Schooler.

For more information, contact 553-0282.
