

Make a New Year's resolution you can actually keep

Every year, many people make a New Year's resolution with the best of intentions. It may be to exercise, eat right, lose weight, or improve personal or financial well-being. But it rarely lasts...and can lead to frustration in the long run.

This year, make a resolution to ensure that your HVAC-R equipment is ready for year round comfort. Preventative maintenance with Carey's Heating and Air Conditioning, a proven industry leader in Chicagoland and NW Indiana, will ensure that your system is checked, tested and ready to roll in 2018.

HVAC Preventative Maintenance Programs give you:

- Proactive Maintenance – Filter and belt changes, system tune ups and operational checkups keep your system running smoothly and avoid unexpected breakdowns. If any problems or operational issues are discovered, you will quickly get a quote for needed repairs to help you prepare for upcoming cash flow needs and ensure that issues are corrected before they turn into costly repairs or even unit replacements.
- Energy Conservation – A system that has been properly maintained operates more efficiently and according to manufacturer guidelines. This reduces your energy costs and carbon footprint and extends the life of your equipment.
- Peace of Mind – You will rest comfortably knowing that your HVAC systems have been checked, tested and maintained by experienced and certified technicians. Trusting the experts to keep your HVAC system in optimal shape relieves the added stress of uncertainty and unexpected costs that can disrupt your budget and cash flow.

If you are ready to make a New Year's resolution that you can actually keep, contact the friendly staff at Carey's Heating and Air Conditioning today. Your resolution will go far to insure success and profitability for your enterprise in 2018!
