Jim,

Sometimes we focus so much on the business that we don't take the time to really stop and just say, "Thank You" and let the folks that serve us really know how much we appreciate them.

I was just taking some time to reflect on the many projects you have done for us over the years and it occurred to me that I needed to let you know that my success as the Building Services Director here at The Navigators is due in no small part to the way you have served my every need when it comes to construction, maintenance and remodel of my facilities. Whether it's been a quick office re-paint or a substantial design-build project, Wells & West has always come through for us with timely, top quality, cost effective work. Add to this your flexibility and the excellent craftsmen on your team and it's no wonder you have become our "Contractor of Choice" whenever we have a need.

So, please pass on to your entire company my personal thanks and the thanks of The Navigators for your service to us and our facility and feel free to use us as a reference both now and in the future. I look forward to many years of working together with you.
