

Colorado Springs Utilities

It's how we're all connected

August 16, 2011

To whom it may concern,

I have project managed several projects using Wells & West General Contractors, Inc. as my General Contractor. Wells & West are very responsive to our needs and they approach everything in a very expeditious and professional manner. Their staff is more than capable and I would highly recommend them on any of my future projects.

Sincerely,

Pono Umiamaka, AIA
