

# Testimonial from Priority Sign, Inc.

You and your team have done an outstanding job. I couldn't be happier how well you planned and laid everything out. Of the three install companies I am working with, your team is head and shoulders above both of them.

When this is all done, I will be having our 17 other project managers to give you a call when they have work to do in PA.

I will see ya around in the next day or so.

10/15/13

---

Thanks, just wanted to see, thanks for the other email about Downtown. Let me know when you cover the rest tomorrow and again **AWESOME JOB.** I will let the other project managers know to call.

When you get time send me a like a radius grid how far away S. Williamsport, PA you will do work so I can send that to them.

God Bless,

Lance
