

# Testimonials

As a licensed architect and the architect for my own home's tear-down and rebuild, I would like to thank you for your company's professionalism and attention to the details that were important to me. The air handling equipment that you recommended including dehumidification, and air purification all perform per your recommendations and provide my family with a very comfortable home environment. I will recommend Air Expo on all future projects!

Charles Knapp, AIA, LEED AP

Thank you for the new air conditioning system in my two-story home. You and your staff were very informative and patient with all of the questions that I asked. Above all, my wife was very pleased when she returned each day from work to our clean home. Great job!

Richard S. - West Milford, NJ

Thank you Air Expo! You successfully replaced our old systems with modern and efficient systems, and converted our first floor system from one zone to two. Not easy to do with forced hot air systems! Now we are saving money with the more efficient units, and we are also saving money by keeping the least used zone on the first floor at lower temperatures in Winter and warmer temperatures in Summer. Your team is courteous and respectful of our home and we're happy we signed up for your seasonal service program. Keep up the good work!

Joe & Joan P. - Chatham, N.J.

5 STARS all the way! AIR EXPO installed my central air system, which was not an easy feat in my 90 year old cape and have done the maintenance for the last 2 seasons. I couldn't ask for any better. Love the service from Air Expo!

Lisa V - Butler, NJ
