Re: Midwest Construction Services, LLC  
Near North Montessori School Asbestos Abatement Project

To Whom It May Concern:

Midwest Construction Services, LLC performed a large-scale asbestos abatement a Near North Montessori School, located at 1434 West Division Street in Chicago, IL during the spring and summer of 2009. PSI provided the asbestos abatement design and oversight during the project, which valued approximately \$330,000.00

During the project, Midwest, PSI, and the building owner worked together to coordinate, design, and execute a complicated project, isolating various areas during normal school operations. The overall project proved successful, as the owner was able to complete their renovations on schedule.
