Re: Business Recommendation /Reference for Presidential Pools

To Whom It May Concern:

For over six years Presidential Pools has been a trusted partner in the development of several Valley of the Sun YMCA aquatic facilities. I personally have had the pleasure of working with Presidential Pools on three completed projects and am just starting on the fourth project.

From project planning and design to construction and long after the project is complete, including consulting on older existing pools; we choose Presidential Pools for the value of their experience and their commitment to customer service. Another plus is their knowledge and ease in working with the regulatory entity in ensuring a timely and smooth permitting process.

The Valley of the Sun YMCA is happy to have Presidential Pools as a preferred vendor and trusted partner and proudly recommends Presidential Pools to anyone seeking a capable, reliable, quality pool contractor.

Respectfully

John Piantek
