

4-30-13

To Whom It May Concern:

Eagle Asphalt Sealing is one of the largest asphalt sealcoating contractors in the Northwest. Eagle is more than capable of handling any large size project. Cascade Asphalt Sealing has worked with Eagle many times through the years on large scale projects. This cooperation includes supplying an on-site storage tank and communicating efficiently to keep material readily available for job completion.

Eagle also has the equipment required to complete large jobs. Multiple self-propelled applicator machines with spray and squeegee capability. Multiple tank trucks to transport material around on job site. Eagle also has the luxury of having a 6000 gallon storage tank at their facility to speed up the loading process.

Cascade Asphalt Sealing Co., manufacturer of Armor Seal coatings would recommend Eagle for any sealcoating project. Eagle Asphalt Sealing is one of the higher volume purchasers of Armor Seal. If you have any questions please feel free to call me.

Sincerely,

Chris Jensen
