

Tulalip Construction Company

April 30, 2013

To whom it may concern,

Tulalip Construction Company has been in business since 1985 as a licensed contractor of the Tulalip Tribes. 100% of its work is performed within the exterior boundaries of the Tulalip Indian Reservation and as a contractor for Tulalip Tribes. While we do some residential work, it is always a contractor for the Tribe. A majority of the work performed is for remodeling and maintaining the Tribes current inventory of property and buildings including the Tulalip Casino(s), the Tulalip Hotel, Tulalip Administration Offices, Quil Ceda Village offices and many more. All work is competitive bid in nature.

Eagle Asphalt-Sealcoating Company has been a subcontractor to Tulalip Construction Company for about 6 years and has successfully completed a host of sealcoating and more recently, parking lot striping is included in its company profile. Tulalip Construction Company has bid and been awarded several jobs for the sealcoat maintenance of the Tribes huge parking lots. Primarily, the Tribe sealcoats its parking lots in a quadrant per year. These quadrants are typically in the range of 500,000 square feet. These large parking lot jobs are completed in a 3-4 day process. We have several successful bids and are pleased to have Eagle Asphalt-Sealcoating as our sub-contractor.

If you have any question. Please feel free to call me at the number listed below.

Thank You!
