To whom in it may concern,

MD Medical Group has been working with All Star Mechanical for almost a year. They started providing service to only a few locations and have gained the confidence to currently help us in the DFW and Houston area, providing service to +/- 30 of our locaitons.

Their expertise, professionalism and integrity is something that continuously surprised and made the job easier for me as a Project Manager in a Healthcare company.

I would recommend them and describe as hard working, ethical and compliant with deadlines. In my experience, All Star Mechanical can complete the job that they set to do and have a great attitude whilst doing it. If you have any questions, feel free to contact me at the above email address.

Best,

Maria Enriquez
