Dear Mike,

On behalf of the 1,800 PGA members located throughout South Florida we want to sincerely thank you for the excellent work in renovating and expanding our headquarters building. Throughout the entire project you and your team were great partners and ensured we were satisfied with every step. Sean Mayer could not have been a better representative of your company on a daily basis.

One of the items that impressed us the most was before the project even started and after we had signed the contract you walked through the building offering suggestions for where we could ultimately save money and time on the project. We knew at that point we had hired the right contractor and the project would be handled properly. Not only was the project completed on budget but it was also completed well in advance of the deadline we had for completion.

Our Board of Directors held their first meeting in the new building in December and to the person they could not have been more impressed in the final product. You have allowed our staff to be more efficient and given us a building that makes all the PGA members in South Florida proud to say it is their home.

Thank you again for your dedication to our project and know that we would offer the highest recommendation of Gen-X to anyone who asks.

Cordially,

Mark VanDyck, President
South Florida PGA

Geoff Lofstead, Executive Director
South Florida PGA
