QUICK BONDS

Thank you for submitting this contractor to Auto-Owners for qualification under our Quick Bond Program. At this time the contractor's credit reports meet our credit requirement for the program. This is not an approval for execution of any bond at this time.

At the actual time a specific bid, performance or payment bond is actually required, this contractor must be re-qualified. We require a fully completed and signed application for each contract bond requested. Qualification will be done at that time based on credit reports and all other requirements of the program.

Thank you,
