Re: Completed NW Valley YMCA in El Mirage

To Whom It May Concern:

It is with great pleasure that I write this Letter of Recommendation for the team at Arizona Corporate Builders. I began working with Dan Barnett in 2012 and found him to be very helpful in the coordination, design, detailing and overall concept plans that were required in the initial phases of this 5.3 million dollar Design Build project we did together. Once the design was reached and plans were in production, his team did an amazing job of scheduling and completing the project within our aggressive construction schedule that was completed in the Spring of 2014.

We had many issues that came up, as all things do in construction, but the erection crew and Dave Manarin did an incredible job in communicating and working through these obstacles that in some cases, turned into a better result than was even designed. We had minimal change orders and when changes did occur, Dan, Dave and their group were very fair in their cost and change requirements.

I would recommend Arizona Corporate Builders to any general contractor or owner, as I feel they were truly part of our team from the beginning to the very end. They will do their best to be a key component in any team put together, and their strong work ethic coupled with their construction knowledge would make any Design Build or CM@R project better.

I would be happy to speak more about them if anyone wishes to contact me. If you require further information, please do not hesitate to contact me at your earliest convenience.

Sincerely,

Steven A. Stoaks  
President
