Reference: Mr. Tapani A. Talo

To Whom It May Concern:

We know Tapani Talo from our recent work together on the Pontiac Marina Retail and Hotel Projects in Singapore. The architect for the Retail Project is Philip Johnson and the architect for the Hotel is John Burgee. Tapani was with John Burgee Architects at that time. We are the structural engineers for these projects.

We had an excellent working relationship and found Tapani to be a knowledgeable, hard-working and competent architect. He had a good understanding of the structural requirements of the building.

We are pleased to recommend Mr. Talo to you without reservation.

Should you need further information, please do not hesitate to contact us.

Very truly yours,

LESLIE E. ROBERTSON ASSOCIATES
