

Recommendation for STI and Phil Mahan

From Kathy Knapp (4/14/13)

Our condo association has been working with STI and Phil Mahan for about 2-1/2 years. We are mid-way through a multi-year exterior renovation project. Phil has been absolutely terrific to work with. He's extremely knowledgeable, very reliable, and very detail oriented—a critical factor in a building consultant! As a very involved Board president, I have personally accompanied Phil on many of his inspections of the work being done by our contractors over the past two years. Phil's great eye for detail and strong knowledge of the specs he developed for our project are easily evident in his conversations with our contractor. He states what needs to be changed/fixed in a matter-of-fact yet personable manner. STI and Phil Mahan have earned my highest recommendation.
